# Meet The CEOs

## Deo Kishan Mohta

Chair | MD

D.K. Mohta is a seasoned entrepreneur who played a pivotal role in building Comet Technocom and Asansol Steel Castings. With decades of experience, he shaped them into trusted names in engineering. His hands-on leadership continues to inspire teams and fuel lasting growth.

## Vivek Mohta

MD

Vivek Mohta brings a dynamic and forward-thinking approach to Comet Technocom, driving innovation in precision manufacturing and expanding its reach across modern industries. At Asansol Steel Castings, he champions operational excellence and technological advancement in delivering critical components with unmatched quality.

## Anand Mohta

MD

Anand Mohta brings a balanced blend of insight and adaptability to the leadership team. His steady presence and forward-looking mindset continue to support the group's growth journey, fostering a culture of reliability, collaboration, and long-term vision.

## Saurav Bhartia

MD

Saurav Bhartia brings strategic clarity and a results-driven mindset to the leadership team. With a strong focus on innovation, operational strength, and long-term growth, he plays a key role in shaping the group's evolving vision. His thoughtful approach to leadership, continues to support sustainable expansion and a culture of excellence across the organization.

# Comet Technocom

*Engineering Precision. Powering Progress.*

## About Us

Comet Technocom, headquartered in the industrial heartland of Howrah—often referred to as the Sheffield of the East—is a dynamic and fast-growing conglomerate recognized as a leading ancillary partner to the Railway Wagon Industry in Eastern India.

Guided by the vision and leadership of our founder, Mr. D. K. Mohta, a seasoned industrialist with over four decades of experience, the Comet family has continually strived for excellence. Under his stewardship, we have not only earned a strong foothold in the railway sector but have also made significant strides in the field of overhead transmission and electrification for power utilities (Vidyut Nigams) across the nation. Our consistent performance and dedication have earned us prestigious orders from reputed government organizations.

At Comet Technocom, quality is the cornerstone of everything we do. We are proud to employ the crème de la crème of industry professionals, ensuring that our team comprises the finest talent available. Our stringent quality control processes are applied at every stage of production, ensuring that every component meets the highest standards of precision, performance, and durability.

Driven by innovation, powered by experience, and committed to customer satisfaction, Comet Technocom continues to expand its legacy as a trusted partner in India's industrial growth story.

# Our Services

At Comet Technocom Pvt. Ltd., we offer end-to-end engineering and manufacturing services tailored to the needs of the railway and electrical transmission industries.

Our services include:

- ▶ **Custom Component Fabrication:** *Precision-engineered components as per client specifications.*
- ▶ **Turnkey Manufacturing Solutions:** *From raw material sourcing to final assembly and quality testing.*
- ▶ **Quality Assurance & Testing:** *Rigorous inspection protocols to ensure industry-compliant standards.*
- ▶ **Client-Centric Development:** *Collaborative design and prototyping support for specialized projects.*
- ▶ **On-Time Delivery & Logistics Support:** *Efficient production planning and reliable supply chain execution.*

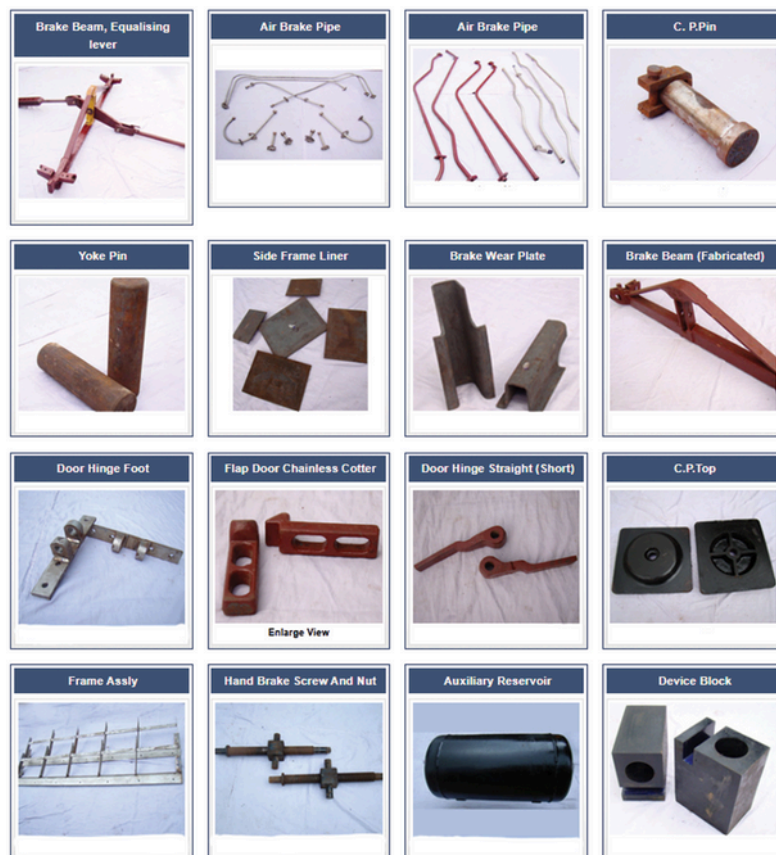

We are committed to delivering consistent, high-quality service that supports our clients' operations and infrastructure goals.

# Our Products

Comet Technocom is known for its robust and reliable product range, catering primarily to Indian Railways and major infrastructure companies. Our key products include:

- ▶ **Railway Components:** Brake beams, center buffer couplers, side bearers, draw gear parts, and more.
- ▶ **Electrical Transmission Accessories:** Clamps, brackets, and fittings used in power transmission lines.
- ▶ **Steel Castings & Fabrication Items:** Precision-cast and fabricated parts for industrial applications.
- ▶ **Structural Components:** Heavy-duty parts for wagons, locomotives, and overhead equipment.

All products are manufactured using high-grade materials, adhering to stringent quality standards, and designed to withstand heavy-duty industrial use.

# Asansol Steel Castings Pvt. Ltd.

*Shaping Quality with Precision in Every Pour.*

## About Us

---

Asansol Steel Casting Pvt. Ltd., established in 1984, is a privately held limited liability company engaged in the manufacturing and supply of a wide range of industrial castings. Over the decades, we have earned a strong reputation as one of the leading manufacturers in the domain, known for our commitment to quality and precision.

Our extensive product portfolio includes Alloy Castings and Steel Castings, offering components such as Crane Wheels, Charging Boxes, Bearing Housings, Gears, Grate Rings, Valve Bodies, Idlers, P.E. Brackets, and more. These products are engineered using high-grade raw materials sourced from trusted and reliable vendors, ensuring consistency and adherence to industry standards.

Our castings are widely used across critical sectors such as the Railway and Steel industries, where performance and durability are paramount. Each product is developed under the strict supervision of experienced professionals, ensuring that it meets the specific design, dimensions, and functional requirements of our clients. Our team emphasizes accuracy and client satisfaction, leaving no room for grievances at the point of application.

Backed by a dedicated and skilled workforce, we have fostered a collaborative and quality-driven environment that supports innovation, efficiency, and long-term client relationships. At Asansol Steel Casting Pvt. Ltd., maintaining the highest standards of production and service is not just a goal—it's our commitment.

# Our Services

---

Partner with us for end-to-end excellence in steel casting—where quality meets precision and reliability. Our services include:

- ▶ Tailor-made casting designs to match your exact needs
- ▶ Precision-engineered components built to perform
- ▶ Strict quality control at every stage
- ▶ On-time delivery with reliable supply chain support

# Our Products

---

Asansol Steel Castings is known for its precision-engineered castings and components, serving primarily the Indian Railways and heavy industrial sectors. Our key products include:

- ▶ Crane Wheels & Sheaves: Designed for material handling systems and overhead cranes.
- ▶ Bearing Housings & Brackets: Heavy-duty, cast steel housings used in railways and industrial setups.
- ▶ Valve Bodies: Robust castings used in industrial fluid control systems.
- ▶ Grate Rings & Charging Boxes: Custom fabricated items for furnace and foundry operations.
- ▶ Gears & Gear Blanks: Precision cast and machined for heavy-duty applications.
- ▶ P E Brackets, Idlers, and Housings: Engineered for critical mechanical support and motion systems.

All our castings are produced using premium-grade materials, following stringent quality norms, and built to endure extreme industrial environments.

# Our CLIENTS

---

We take pride in being trusted partners to some of the most respected names across industries.

From engineering giants to public sector undertakings, our client relationships are built on a foundation of precision, performance, and reliability.

- ▶ All Zonal Railways
- ▶ Texmaco Ltd.
- ▶ Burn Standard Co. Ltd.
- ▶ Braithwaith & Co. Ltd.
- ▶ Simplex Casting Ltd.
- ▶ Bhilai Engg. Corpn. Ltd.
- ▶ Titagarh Wagon & Industries
- ▶ Bharat Wagon & Engg. Co. Ltd.
- ▶ Jaipur Vidyut Vitran Nigam Ltd.
- ▶ Ajmer Vidyut Vitran Nigam Ltd.
- ▶ Jodhpur Vidyut Vitran Nigam Ltd.
- ▶ Gujrat Urja Vikas Nigam Ltd.
- ▶ Jesop & Co. Ltd.
- ▶ Larsen & Toubro.
